Ask for these at the Library

This England by Mary Ellen Chase (author of the charming "Mary Peters" and equally popular "Silas Crockett") is a travelogue of new and distinctive charm. Miss Chase records the impressions of a year spent in England in a series of pictures of England and the English, done in humorous yet deeply human vein. Though her descriptions of people and places are colored with wit and candor, a warm sincerity and understanding prevails throughout all the book. It is well worth reading.

Rich Land, Poor Land by Stuart Chase. This is a clearly written, easily read book about the natural resources of the United States. Chase writes dramatically as he always does, and he pictures for the layman a history of the waste of our physical resources and the disaster threatened thereby to the economic and cultural life of the United States. The book is illustrated and shows some remarkable photographs and charts. William Allen White rates this as "a book which should be made compulsory reading in every high school and college in this land."

President's Ball Fund Increased

A late check up on the proceeds of the President's Birthday Ball, held Jan. 30, at the Hollywood Riviera club, shows that the returns are better than reported last week. Approximately \$255 were collected from ticket sales over the necessary expenses. Seventy percent of that sum will remain here for the care and treatment of infantile paralysis sufferers. The fund will be administered by a local committee of physicians and civic leaders, headed by Mrs. Harry U. Higgins.

Lomita Clears \$126 The Lomita Birthday Ball committee made this report last night. Tickets sold, \$128.20, including refreshments and check room; expenses, \$55.89; total cleared, \$126.31. Sent to Washington (30 percent), \$37.89; retained for local infantile paralysis relief (70 percent), \$88.42. Thanks of the committee is expressed to all who assisted in any way with making Lomita's first Birthday Ball the outstanding success it was.

Pre-Easter Preparation Halts Festivities as Old Church Custom Prevails Here

Yesterday (Ash Wednesday) ushered in the Lenten season which is observed by many of the churches in this community. Fasting will be an important topic until Easter Sunday, Mar. 28. Parties promise to be few until after this date, when milady will burst forth in her gayest summer frock and bonnet for, mind you, the jolly prints that boast everything from blossoms to cabins and worn with large hats are most effective.

Many Talents

When Miss Billie Davis, above, lost her purse in Los Angeles recently she sneaked aboard a transport plane and rode to San Francisco—first known instance of a hitch-hiker on the skyways.

Every hostess or group will strive to have the first post Lenten affair and the appetizing menus will be more than gratifying to those loyal few who have observed the full 40-day fasting period.

The word Lent originally meant spring. It's coming at the time when many churches are preparing for the great feast of Easter, proved most confusing. The fasting or Lent was at one time but 40 hours instead of 40 days and no food was eaten from Good Friday afternoon until Sunday morning. The Montanists, second century folk, observed two weeks of rigid fasting and by the middle of the Third Century all Holy Week was observed.

Townsend Club Activities

We still have to bow to Old Flend Flu but those who are well enough are at the auditorium every Thursday evening. A group will be there tonight.

Our president gave a fine report of the Congressional mass-meeting of the 17th District held Jan. 29, where a lot of work was accomplished. We also heard more in regard to the McGroarty bill which will make a fine "pork-barrel" for those who get administrative offices, so it is rumored, and will thereby leave mighty little for the aged to receive.

Kindergarten Class In Music Announced

Parents who have children a little too young to enter kindergarten this semester in the public schools, and who want some constructive activity for their children will be interested in the six weeks' course in musical training to be given by Kathryne Buffington at her studio, 1533 Marcelina, starting Feb. 23. Students of the same age are grouped four to a class.

The child need not have a piano at home to benefit greatly from this short course as the training is largely rhythmic, Mrs. Buffington says. Through the rhythm orchestra and the magic board, together with creative rhythms the student is taught the first fundamentals of music. The foundation is most important in any study, and these class lessons permit children to have a competent teacher when it is most necessary.

Dance Limit Law Adopted; Powell Explains "No" Vote

Ordinance 291, banning Sunday dancing and dances after 2 a. m., on week days was adopted by the city council on its second reading Tuesday night. Councilman George V. Powell explained his negative vote on the measure at its first reading, stating that "the reason I voted no on this was because I don't approve of interfering with home parties."

City Attorney C. T. Pippy explained that the ordinance said nothing about private functions, that it only regulated public dances. Powell joined the other councilmen then in adopting the law.
